Caliper Old Core Returns

Our policy is that we collect old calipers free of charge, once a minimum of three old units are ready to be returned for credit. For less than five calipers we ask you to box each caliper individually, making sure its securely packed. We will send our courier DPD to collect them. For more than five calipers, we ask you to strap them down to a pallet and we will send pallet line into collect them. Please ensure you always send returns notes with your goods.

Acceptance For Returned Old Core Calipers

1. The returned old core calipers must be an equivalent of the purchased caliper. If you can not return the original caliper for any reason, similar makes can be accepted! For example, if you buy a Knorr Bremse, we will accept another Knorr in its place. It has to be the same make, in order for us to accept it. We will not accept a Knorr Bremse if you owe us a Meritor or Wabco Caliper.
2. According to the regulation on environment protection, the core should be secured and packaged in such a way that they do not pollute the environment. From hydraulic calipers you should remove the brake fluid agent remaining in them, where possible. The inlets should be stopped with plugs and the caliper to be returned preferably in a sealed bag.
3. In order to be accepted, a caliper must be complete. It cannot be disassembled and must meet the below specified technical requirements.
 - A. The caliper body may not be cracked, broken or deformed.
 - B. The calipers should be complete and not disassembled into parts, or have any missing parts. If the caliper is supplied with a carrier, then it must be returned with the carrier.
 - C. The model of the returned caliper core, must be the same model as that purchased; however, it does not have to be the same part number or side.
 - D. Models similar to those purchased, but are slow moving or obsolete applications will not be accepted!
 - E. Any sharp edges/corners should be completely removed to prevent cuts when handling core.
 - F. Customers are responsible for the return of old units and therefore should pay extra attention to suitably packing returns to avoid damage or losses in transit.
 - G. Old units should be returned within 90 days of the date of purchase, otherwise immediate payment is required.

Core Surcharge

We provide reconditioned brake calipers that meet the original manufacturer's standards. To recondition your old parts, we require your brake caliper. Upon returning the old part, we'll refund the deposit if it meets certain conditions, such as being free from damage and retaining its original shape. Refunds are processed within 15 working days, and returns are accepted within 12 months. After this period, refunds are not possible. Choose one of the surcharge options:

Option 1: Without Surcharge - You send back your old core to Transaxle Limited and only pay a fair price. This helps in remanufacturing parts and contributes to environmental preservation.

Option 2: With Surcharge - You pay the fair price plus a surcharge for the old caliper core we provide. Failure to return the old unit means forfeiting the surcharge refund.

Feel free to reach out; we may be able to locate a part for you that doesn't require returning the old unit.

COMMERCIAL BRAKE EXPANDERS

Product Improvement

SB/SN/SK 6 & 7 AIR CHAMBER SEAL

Now fitted to Transaxle Knorr calipers

TRX17895

KNORR PRODUCT IMPROVEMENT

A RAFT of new rules have come into place on the MOT test.

Around a dozen items are now testable that were not previously part of the test. This is to keep in line with an EU directive that sought to harmonise vehicle testing across Europe.

We will be fitting new Weather Protective covers on the Knorr small sliders.

TRX11562 Unitised Bush

TRX14685
Protective Cover

This will give added protection against water on the slider and protect the Rubber Bellow.
