About Us

Transaxle Limited is considered one of the leading, professional, quality suppliers of reconditioned commercial brake calipers & kits in the UK. Transaxle Limited is a family run business, which has experienced vast growth and expanded from a small factory in central Birmingham to a larger factory/warehouse facility in Walsall, West Midlands of 13,000sq. foot. We are five minutes from the M5 and M6, so our distribution is first class. This bigger facility has allowed the business to not only expand in size by hiring more skilled staff to add to the already experienced and trained staff, but also into new brake caliper and commercial component markets, both nationally and internationally.

The business is led by Roy Meddings, Managing Director (a former Sales Manager for Rockwell International), highly trained and qualified in Braking, Leisa Meddings, Financial Director bringing a blend of commercial braking industry expertise and financial know-how and Johnathan Meddings, Sales Manager who brings with him a design & advertising background.

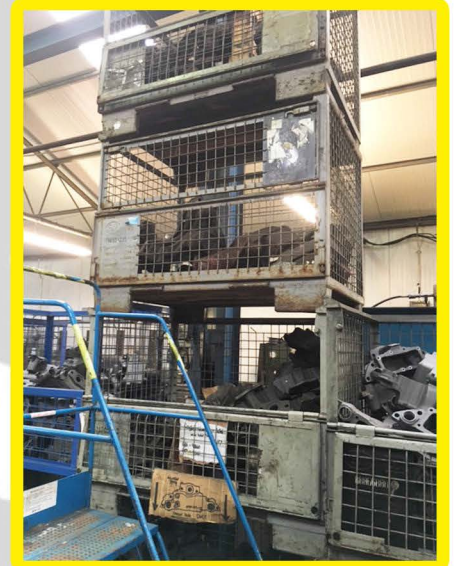

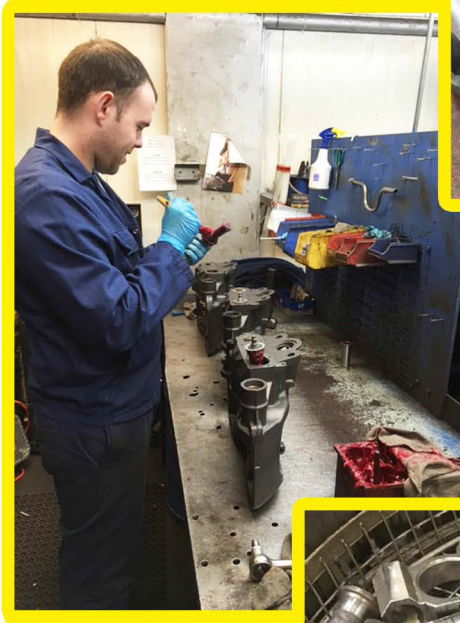

Transaxle also comprises of a dedicated team of administration staff who cater to customer queries and a committed group of caliper rebuilders and component production operatives. Both teams are fully trained. We also protect and guarantee all of our calipers with 12 months warranty and £5 million product liability insurance.

Range Available

We stock an extensive range of commercial vehicle brake calipers, repair kits, brake expanders, wear sensors and pad fitting kits. Our range includes both full air and hydraulic operated calipers covering van, truck, trailer, bus and off road brake calipers and components. We mainly supply remanufactured calipers but can also offer competitive rates for new. We stock a massive range of Meritor, Knorr Bremse, Wabco, Brembo, ATE and Haldex commercial brake calipers and repair kits.

All our brake calipers are fitted with new guide pins and seal kits to make them as 'like new' as possible. In addition to this, we protect and guarantee all of our calipers with warranty and £5 million product liability insurance.

We also offer same day reconditioning service in the UK and additionally a service to remanufacture 'odd ball' units or obsoleted units.

Our range are pre-fixed with 'TRX' numbers to denote each caliper or kit as TRANSAXLE, we also designate a specialist enquiry number to be quoted on each correspondence so your query is fully tracked and taken care of by our dedicated team.

Our full range are from the following brands: Bova, BPW Trailer, Czepel, DAF Leyland, Dennis, Discos Mercedes Trailer, ERF, Evo Bus, Foden, Ford Transit Van, Ford Cargo, Gigant Trailer, Ikarus, Irisbus, Iveco Daily Van, Iveco, Karosa, Kassbohrer, LDV Van, Lecinena, MAN, MCI, Mercedes Unimog, Mercedes Van Sprinter, Mercedes Truck, Neoplan, Nissan, Optare, Orion, Renault R.V.I., ROR Meritor Trailer, SAE Trailer, SAF Trailer, Scania, SMB Trailer, Timoney Teledyne, Van Hool and Volvo.

OLD CORE RETURN

Our policy is that we collect old calipers free of charge, once a minimum of three old units are ready to be returned for credit. For less than five calipers we ask you to box each caliper individually, making sure it's securely packed. We will send our courier DPD into collect them. For more than five calipers, we ask you to strap them to a pallet and we will send Palletline into collect them. Please make sure you always send returns notes with your goods.

Acceptance criteria for returned old core calipers

1. The returned old core calipers must be an equivalent of the purchased caliper. If you can not return to original caliper for any reason, similar makes can be accepted. For example if you buy a Knorr Bremse, we will accept another Knorr in its place. It has to be the same make though for us to accept it, we will not accept a Knorr Bremse if you owe us a Meritor caliper or Wabco caliper.
2. According to the regulation on environment protection, the cores should be secured and packaged in such a way that they do not pollute the environment. From Hydraulic calipers you should remove the brake fluid agent remaining in them, where possible. The inlets should be stopped with plugs and the caliper returned in a sealed bag.
3. In order to be accepted, a caliper must be complete. Not disassembled and must meet the below specified technical requirements.
 - A. The caliper body may not be cracked, broken or deformed.
 - B. The calipers should be complete and not disassembled into parts, or have any missing parts. If the caliper is supplied with a carrier, then it must be returned with a carrier.
 - C. The model of the returned caliper core, must be the same model as that purchased; however it does not have to be the same part number or side.
 - D. Models similar to those purchased, but are slow moving or obsolete applications will not be accepted.
 - E. Any sharp edges/corners should be removed to prevent cuts when handling core.
 - F. Customers are responsible for the return of old units and therefore should pay extra attention to suitably packing returns to avoid damage or loss in transit.
 - G. Old units should be returned within 90 days of the date of purchase, otherwise immediate payment is required.
